A Bold New Direction

The *Pokémon Legends: Arceus* game honours past Pokémon games' core gameplay while infusing new action and RPG elements.

You'll need to catch, survey, and research wild Pokémon in a long-gone era of the Sinnoh region to create and complete the region's first Pokédex.

Meet your first partner Pokémon

As you start off on your adventure to create the region's first Pokédex, you'll be able to choose Rowlet, Cyndaquil, or Oshawott as a partner.

Rowlet

Cyndaquil

Oshawott

Time for a Pokémon battle!

The flow of battle in *Pokémon Legends: Arceus* works differently than in prior games in the Pokémon series. A Pokémon's stats and other factors determine how many actions each Pokémon gets to take and in what order. This can create situations where one Pokémon might get to take multiple turns in a row.

Arceus

Holding the key to this tale is the Pokémon known as Arceus. Arceus is said to have shaped all there is in this world. Just how is this mighty Pokémon connected to your journey?

THE ADVENTURE THROUGH THE SINNOH REGION HAS BEEN REBORN!

Become the Champion

As you travel across Sinnoh filling out your Pokédex, you'll challenge the strongest Pokémon Trainers in each town: the Gym Leaders.
